Notes

- * all elopements allow for at least 2 guests in addition to the couple
- * all weddings allow for at least 10 guests in addition to the couples
- * some venues allow for more guests than we have allocated. Additional guest pricing starts at \$30/pp.
- * all of our packages are customizable to you.
- * 5% of the total price goes to charity
- * we want this to be your dream day and we will do anything we can to help you achieve your vision!

What's the difference between elopements and weddings?

* elopements are 60-90 minutes long. weddings are at least 120 minutes long, which means that you get us, the photographer and the venue for an extra half hour!

* weddings allow for bigger guest lists. more people means more food, drinks, seating, decor and usually a larger venue.

* all weddings include cake, drinks, nibbles, seating, and music. not all elopements allow for these treats.
